Proceedings 1982 British Crop Protection Symposium DECISION MAKING IN THE PRACTICE OF CROP PROTECTION

Contents

	Page
Symposium Programme Committee	vi
Contributors and Session Chairmen	v
Preface	ix
1. THE DECISION MAKING PROCESS	1
Crop Protection Decision Making—an Overview G. A. NORTON	3
Farmers' Perceptions and Crop Protection Decision Making J. D. MUMFORD	13
Information Flow and Crop Protection Decision Making T. J. LAWSON	21
The Value of Information in Crop Protection Decision Making J. P. G. WEBSTER	33
Farmers' Attitudes and Crop Protection Decision Making E. J. TAIT	43
2. FORECASTING TECHNIQUES AS AIDS TO DECISION MAKING	53
Meteorology as an Aid to Crop Protection N. THOMPSON	55
The Epipe System F. RIJSDIJK	65
Rationalising the Need for a Fungicide Programme on Winter Wheat Using a Risk Assessment Scheme J. R. KELLY	77
Population Dynamics of Annual Grass Weeds G. W. CUSSANS and S. R. MOSS	91
Aphid Monitoring and Forecasting as an Aid to Decision Making G. M. TATCHELL	99
3. CASE STUDIES OF DECISION MAKING	113
Weed Control in Cereals—Strategy and Tactics J. G. ELLIOTT	115

Decision Making in Cereal Pest Control MARY SHORT	121
Decision Making in Cereal Disease Control R. J. COOK	133
Sugar Beet Pest, Disease and Weed Control and the Problems Posed by Changes in Husbandry R. A. DUNNING	143
Planning Crop Protection Programmes to Safeguard Yield and Quality for the Potato Crop J. S. GUNN	155
Decision-Based Management of Orchard Pathogens and Pests in the United Kingdom D. J. BUTT and M. J. JEGER	167
Decision Making in the Controlled Environment W. M. MORGAN	191
4. CONVERSAZIONE	205
Crop Weighing and Recording P. R. HILL	207
The Use of Videotex Systems in Crop Protection Decision-Making C. I. HOUSEMAN	207
The 'OATS' Program and its Role in Training for Decision Making in Cereal Growing M. J. JONES	208
The Influence of Forecasting Accuracy on Cereal Aphid Control Strategies A. D. WATT and S. D. WRATTEN	208
Glasshouse Environmental Control M. S. TRIBICK	209
Sprayplan R. T. RICHARDSON	210
ADAS National Pest and Disease Intelligence Service D. V. ALFORD and D. C. GWYNNE	210
Some Aspects of Agricultural Meteorology N. THOMPSON	211
Glasshouse Computer Control System S. W. BURRAGE	211
CASP—A Computerised Advisory Service for Crops J. O. WALKER	212
The Cereal Unit of the National Agricultural Centre CATHERINE S. MORE	212
The HP9845C, a Desk-Top Computer with Colour Graphics D. ROBERTS	213
The FARMSTAT Data Base A. M. HOUGHTON	214
A Financial and Arable Management System JENNY WILSON	214
A Microprocessor Control System for the Glasshouse M. J. DOWE	215
Planning Farm Weed Control Strategy J. ELLIOTT	215

Epipre—A Supervised Pest and Disease Management System for Winter Wheat F. H. RIJSDIJK	215
A Program for Cost/Benefit Analysis in Cereal Fungicide Spray Decisions R. J. COOK	216
5. FUTURE NEEDS AND PROSPECTS	217
A Farmer's View W. J. B. TAYLOR	219
More, and Better, Agrochemicals? D. TYSON	221
The ADAS Contribution J. J. NORTH	223
The Role of the Agrochemical Merchant J. R. METCALFE	227
The Work of the Research Services D. RUDD-JONES	229
A Contractor's View of Farmer's Decision Making P. J. LONG	233
An Independent Adviser's Viewpoint A. A. LOCK and E. A. BROWN	235
